PROFESSIONAL SUMMARY

BBS (Finance) graduate from Shanker Dev Campus, Tribhuvan University, with hands-on analytical experience from a five-year comparative study of two banks' capital structures — built entirely from audited statements, with every bank-year checked for internal consistency before any ratio was computed. Comfortable reading annual reports and Basel III disclosures, and able to judge whether a headline number holds up. Seeking an entry-level role in a bank, insurance company, or financial services firm where careful, dependable analysis adds value from day one.

EDUCATION

Bachelor of Business Studies (BBS), Finance, Shanker Dev Campus, Tribhuvan University, Kathmandu
2022 to 2026

Higher Secondary (10+2), Management, Everest Secondary School (NEB), Kathmandu
2019 to 2021

KEY ACADEMIC RESEARCH PROJECT

Comparative Analysis of Capital Structure: Privately-Owned vs Government-Owned Banks

(Nabil Bank vs Rastriya Banijya Bank). Final-year BBS research · Supervised by Prof. Durga Datt Pathak

- Analyzed **five years of audited statements** (FY 2077/78 to 2081/82; ten bank-years) across **nine ratios** — leverage, equity-to-assets, CAR, Tier 1, ROE, ROA, EPS, credit-to-deposit — using comparative, trend, descriptive, and correlation methods.
- Found the **government bank carried the higher leverage in four of the five years** (10.22× vs 9.18×) and ended with the **thinner capital buffer**: its Tier 1 ratio fell to **8.98%**, just 0.48 points above the NRB minimum, as retained earnings turned negative while its loan book grew 64%.
- Showed the profitability gap was **not structural** — ROE was level in FY 2077/78 and RBB out-earned Nabil the year after — and that **EPS pointed the wrong way**, RBB's five-year mean (Rs. 24.69) exceeding Nabil's (Rs. 23.97) on a share base half the size.
- Used **audited figures only**, after finding audited profit ran **12-27% below** the unaudited quarterly numbers in every year; ran balance-sheet, equity, and EPS integrity checks on all ten bank-years first.

SKILLS

- **Financial analysis**: Ratio analysis (D/E, CAR, Tier 1, ROE, ROA, EPS, CD) · Comparative & trend analysis · Descriptive statistics & correlation
- **Tools**: Microsoft Excel · Tally · MS Word · Google Docs · Nepali & English typing

STRENGTHS

Teamwork · Customer handling · Time management · Attention to detail · Communication

LANGUAGES

Nepali · English · Hindi
