PROFESSIONAL SUMMARY

BBS (Finance) graduate from Shanker Dev Campus, Tribhuvan University. For my final-year research I completed a five-year comparison of bank capital structures, which built strong skills in reading and analyzing financial statements. Reliable, quick to learn, and comfortable working with people. Looking for an entry-level role in a bank, insurance company, or financial services firm, and currently improving my Excel and Tally skills.

EDUCATION

Bachelor of Business Studies (BBS), Finance, Shanker Dev Campus, Tribhuvan University, Kathmandu
2022 to 2026

Higher Secondary (10+2), Management, Everest Secondary School (NEB), Kathmandu
[years to be added]

KEY ACADEMIC RESEARCH PROJECT

Comparative Analysis of Capital Structure: Privately-Owned vs Government-Owned Banks (Nabil Bank vs Rastriya Banijya Bank). Final-year BBS research, supervised by Prof. Durga Datt Pathak.

- Studied **five years** of audited financial data (FY 2077/78 to 2081/82) using ratio analysis (debt-to-equity, CAR, ROE, ROA, EPS, and credit-to-deposit ratio), along with trend, comparative, and descriptive methods.
- Found that **Nabil**, a private bank, used higher leverage (about 7.5 to 8 times) and earned close to twice the return on a similar equity base, while **Rastriya Banijya Bank**, a government bank, kept a larger capital cushion built from reserves and lent more carefully.
- Collected data from audited annual reports, **Nepal Rastra Bank** directives, and **Basel III** disclosures, and presented the results in clear tables and charts.
- Recommended that Rastriya Banijya Bank make better use of its capital through careful lending, and that Nabil build a stronger capital cushion to support its higher leverage.

SKILLS

- Financial ratio analysis (D/E, ROE, ROA, CAR, CD ratio) · Comparative & trend analysis · Data collection
- Microsoft Excel · Tally · MS Word · Google Docs · Nepali & English typing

SOFT SKILLS

Teamwork · Customer handling · Time management · Attention to detail · Communication · Fast learner
